# The Chinese University of Hong Kong

Founded in 1963, The Chinese University of Hong Kong (CUHK) is a forward-looking comprehensive research university with a global vision and a mission to combine tradition with modernity, and to bring together China and the West. As a top university in Hong Kong and Asia, CUHK aims to nurture students with both specialized knowledge and wisdom for life. The education experience here is distinguished by a flexible credit unit system, a college system, bilingualism and multiculturalism. There are general education courses to broaden students' perspectives and develop in them the ability to face the challenges of contemporary society. CUHK offers over 70 undergraduate programmes through our faculties of Arts, Business Administration, Education, Engineering, Law, Medicine, Science and Social Science.

# School of Economics and Management Tsinghua University

Tsinghua University School of Economics and Management (SEM) was established in 1984, with former Chinese premier Zhu Rongji as its first dean. After 37 years of rapid development, SEM is not only one of the largest schools in Tsinghua University, but also one of the best schools of economics and management in China and Greater Asia. The School of Economics and Management has four national Developing World-class Disciplines, including: Management Science and Engineering, Business Administration, Accounting and Finance, and Economics and Econometrics.

Tsinghua SEM has attracted the highest quality students due to its renowned faculty and curriculum. Every year, over 70% of students choose to continue their studies at home and abroad, and many students start their careers at financial institutions and government departments.

# Department of Economics The Chinese University of Hong Kong

Established in 1963, the Department of Economics at The Chinese University of Hong Kong (CUHK) has a history as long as the University itself. Since then, the Department has played a leading role in economic research as well as economic education in Asia.

The mission of the Department of Economics at CUHK is to nurture the best students by offering effective economics programmes, with an emphasis on theory, applications, and analytical skills that are relevant to China and the world. Its undergraduate curriculum emphasizes both theory and application.

Most of the economics graduates entered the banking, finance and business sectors, others entered the Government and education sectors. A sizable number of graduates went overseas to further their studies and many of them have completed doctoral programmes in top universities. Most of them occupy prestigious positions in the academia, business and government after graduating from their postgraduate studies.

According to the QS World University Rankings by Subject 2021, CUHK is ranked in the field of Economics and Econometrics.

**8<sup>th</sup>** in Asia | **48<sup>th</sup>** in the world

# Programme Overview

Tsinghua University and The Chinese University of Hong Kong (CUHK) have collaborated in offering a 4-year undergraduate dual degree programme. After students complete the joint training programme and meet the requirements of the two universities' respective degrees, they can obtain bachelor's degree certificates issued by Tsinghua University and The Chinese University of Hong Kong respectively.

## Language of Instruction, Educational System, and Degree Conferment

All instruction of this programme will be in English. Those who have completed the required teaching plan, passed the assessments, and passed the graduation thesis defense can obtain their bachelor's degree certificates issued by Tsinghua University and The Chinese University of Hong Kong respectively. Tsinghua University will award a Bachelor's Degree in Economics, and The Chinese University of Hong Kong will award a Bachelor of Social Science in Economics.

The degree will be offered in four academic years, with two years each at Tsinghua University and The Chinese University of Hong Kong.

## Admissions Target

This programme enrolls students from Mainland China, Hong Kong, Macao, Taiwan, and international students. Please refer to "Qualification of Applicants" for more information.

## Project Advantages

### Combination of Theory and Application

It not only emphasizes a solid foundation, but also provides a wealth of professional elective courses for students to choose according to their own interests and career plans.

### Pay Close Attention to China's Economy

Many professors' research topics are based on local issues, aiming to deepen the world's understanding of China's economy.

### Diversified Cultural Exchanges

Students will experience the scholars and campus culture of the two cities and universities.

### Broad Employment Prospects

The main employment units include national economic management departments, securities companies, investment banks, commercial banks, insurance companies, investment fund management companies, management and financial consulting companies, and large enterprises.

### International Perspective

Most of the faculty and staff have obtained PhD degrees from well-known overseas universities, and many of them teach and conduct research in overseas research universities.

# Applications and Requirements

## Students from Mainland China

### Qualification of Applicants:

- Applicants must be holders of a Chinese passport and have registered for the 2021 The National College Entrance Examination.
- In regard to the undergraduate admissions into this programme, students who apply through the provinces that have multiple rounds must apply during the first round. Students whose provinces have only one round shall apply at that time. Students who can be guaranteed admissions shall apply during that respective round. No matter the type of admissions, every student must label Tsinghua as their first-choice university and be admitted.
- Applicants must meet all other admission requirements (physical examination standards, change of major requirements, etc.) specified by the Ministry of Education, the individual province, and by the university.
- Applicants must have a strong interest in economics and show strong development potential.
- Applicants must have a high level of English and is able to adapt to all English-taught programmes.

### Application:

Students should register online and fill in the application form in the registration system. After the submission is successful, the application form will be printed, signed, scanned, and uploaded together with other application materials. The application materials do not have to be mailed.

Registration website:

<http://bk.join-tsinghua.edu.cn>

After registering or logging in, please select "Comprehensive Selection of Dual Degrees in Economics" to register.

### Process of Application:

#### 1 Initial Review

The application review committee will evaluate every student and nominate students to continue onto later testing.

#### 2 Testing and confirmation

Students who pass the initial review are required to participate in the test organized by our university. The test schedule will be announced in the registration system. The application review committee will ultimately evaluate and confirm students based on their application materials and test performance.

#### 3 Acceptance

After the dual degree has been accredited, if the student is admitted through their respective provinces or have been guaranteed admission, the student will enter the "Dual Degree in Economics" programme after entering the university.

### Schedule:

7 Early July  
2021

Online application

7 Late July  
2021
